Please read the additional notes below

If you have a lump sum of over £25,000 to invest and would like to ensure you take advantage of your annual ISA allowance each year, our AutoISA facility offers a convenient solution. From your initial investment we will invest the permitted annual ISA subscription limit in our BMO ISA at the beginning of the new tax year and the balance will be held directly in your chosen fund outside of the ISA. At the beginning of each subsequent tax year, on or around 6 April, we will sell shares up to the permitted annual ISA subscription limit from outside the ISA and reinvest the proceeds in the same fund within the ISA. If the balance is under the permitted limit we will invest all of it subject to a minimum of £1,000. If you want to cancel this instruction all you have to do is contact us to let us know.

The AutoISA feature is only available in respect of subscriptions for Shares in the Funds set out in the application form, subject to the minimum subscription amounts relating to each Fund.

Please be aware that for AutoISA any investment held outside your ISA will be subject to the tax position explained in the Key Investor Information Document (KIDD).

Therefore when we sell shares from outside your ISA to reinvest in the fund within the ISA, it may give rise to a capital gains tax (CGT) liability, although if your realised gains from all investments do not exceed the annual CGT allowance, you will not be liable to CGT. Your financial adviser can give you further information about your personal tax position.

Please note the number of shares to be transferred at the beginning of each ISA year will be determined by the price as at the transfer date which may be higher or lower than the price at which the shares were originally purchased.
