

Key Information Document

This document provides you with key information about this investment product. It is not marketing material. The information is required by law to help you understand the nature, risks, costs, potential gains and losses of this product and to help you compare it with other products.

F&C UK Real Estate Investments Limited

ISIN Code GB00B012T521. This Key Information Document (KID) is issued and approved by F&C Investment Business Limited. Authorised and regulated in the UK by the Financial Conduct Authority.

Date of Production 09/07/2018

What is this Product?

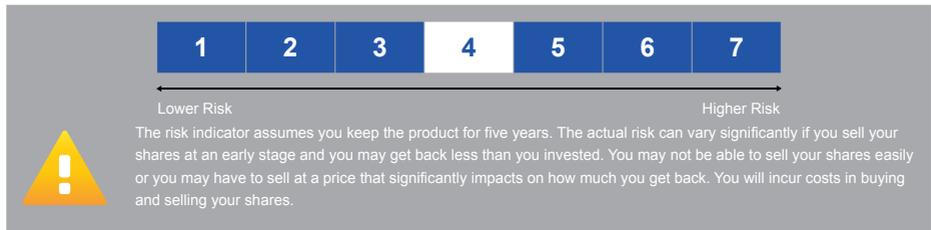

This product is a closed-ended property investment company incorporated in Guernsey. The investment objective is to provide ordinary shareholders with an attractive level of income together with the potential for capital and income growth, from investing in a diversified UK commercial property portfolio.

There are no limits to geographic exposure within the UK, but maximum weightings to the principal property sectors at any time (as a percentage of total assets) will be office 60%, retail 60% and industrial 50%. The Company uses gearing (borrowings) with the aim of enhancing long-term returns. This will magnify any gains or losses made by the Company. The Board's present intention is that this will be limited to a maximum of 40% of the total assets at the time of borrowing.

This investment may be suitable for an investor seeking to include some exposure to commercial property within a balanced portfolio. This product may not be appropriate for investors who plan to withdraw their money in under five years.

What are the risks and what could I get in return?

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets.

We have classified this product as 4, which is a medium risk class. This rates the potential losses from future performance at a medium level. In periods when market conditions are poor, the value of your investment may fall and may impact the amount you get back in the long term.

In addition to market price risk, this product also carries restricted diversification risk, credit risk, interest rate risk, liquidity risk and leverage risk.

The value of your investment can go down as well as up. There can be no assurances that the objective of the Company will be achieved. The use of gearing can enhance returns to investors in a rising market, but if the market falls the losses may be greater. As the shares are traded on the London Stock Exchange, their price is driven by factors such as the demand and supply between buyers and sellers. A price may not accurately reflect the underlying Net Asset Value (NAV) of the Company's investments. The share price may be higher at a premium to the NAV or lower at a discount to the NAV. Discounts and premiums vary constantly.

What are the risks and what could I get in return? (continued)

Assuming you invest £10,000, this table shows how your investment could perform and what you could get back over the next 5 years under different scenarios. You can compare them with the scenarios of other products. The scenarios presented are an estimate of future performance based on evidence from the past but are not an exact indicator. What you get will depend on how the market performs and how long you keep the investment.

The figures shown include all the costs of the product itself, where applicable, but do not include all the costs that you may pay to your advisor or plan manager, or local transaction taxes.

Investment £10,000				
Scenarios		1 year	3 years	5 years (Recommended holding period)
Stress scenario	What you might get back after costs	£2,455	£5,702	£4,759
	Average return each year	-75.45%	-17.08%	-13.80%
Unfavourable scenario	What you might get back after costs	£9,130	£9,759	£10,910
	Average return each year	-8.70%	-0.81%	1.76%
Moderate scenario	What you might get back after costs	£11,126	£13,731	£16,947
	Average return each year	11.26%	11.15%	11.13%
Favourable scenario	What you might get back after costs	£13,492	£19,228	£26,198
	Average return each year	34.92%	24.35%	21.24%

What happens if the Company is unable to pay out?

The Company's shares are listed on the London Stock Exchange. Should the Company be liquidated, the amount you receive for your holding will be based on the value of assets available for distribution after all other liabilities, but before shareholders, have been paid. Shareholders in this company do not have the right to make a claim to the Financial Services Compensation Scheme in the event that the Company is unable to pay out.

What are the costs?

The Reduction in Yield (RIY) shows what impact the total costs you pay will have on the investment return you might get. The total costs take into account one-off, ongoing and incidental costs. The amounts shown below are the cumulative costs of the product itself depending on how long you remain invested. The figures assume you invest £10,000. The figures are estimates and may change in the future. The person selling or advising you about this product may charge you other costs. If so, that person will provide you with information about those costs and show you the impact that all costs will have on your investment over time.

Investment £10,000			
Scenarios	If you cash in after 1 year	If you cash in after 3 years	If you cash in at 5 years
Total costs	£332	£1,074	£1,937
Impact on return (RIY) per year	2.99%	2.99%	2.99%

What are the costs? (continued)

The table below shows the impact of the different types of costs on the return you might get, and the meaning of the different cost categories.

This table shows the impact on return per year			
One-off costs	Entry costs	N/A	The impact of the costs you pay when entering your investment.
	Exit costs	N/A	The impact of the costs of exiting your investment.
Ongoing costs	Portfolio transaction costs	0.13%	The impact of the costs of us buying and selling underlying investments for the product.
	Other ongoing costs	2.86%	The impact of the costs that are incurred each year in managing your investments including those incurred by any underlying investments.
Incidental costs	Performance fees	N/A	We take these from your investment if the total return from the directly held properties exceeds 115% (85% if the total return is negative) of the benchmark IPD Quarterly Index. The fee is chargeable at 15% of the outperformance up to a maximum total management fee of 0.75%, based on average total assets of the Company.
	Carried interests	N/A	

How long should I hold it and can I take money out early?

F&C Investment Business Limited recommends a minimum holding period of five years for investments made into this Company. The value of the properties held is the opinion of the Company's independent professional valuers at a point in time. They may not be supported by recent transactions and are liable to revision, up or down. The Company's shares are traded on the London Stock Exchange and valuations are subject to market factors so investment should be made with a long term view. It is possible to sell your investment on any business day of the Exchange by contacting a Broker dealing in the Company's shares. What you get back will be influenced by the market factors at the time of sale. If you sell your shares before the end of the recommended holding period you may increase the risk of receiving back less than you invested.

How can I complain?

F&C Plans: If you have concerns about this product or service and have purchased it through an F&C plan, you can contact us by writing to Investor Relations Manager, F&C Investment Business Limited, Quartermile 4, 7a Nightingale Way, Edinburgh, EH3 9EG, via email at investorrelations@fandc.com, or by phone: 0345 601 3313 (9am - 5pm weekdays).

Direct Shareholders: If you have concerns about this product and have purchased it through another provider, then please write to F&C UK Real Estate Investments Limited, Quartermile 4, 7a Nightingale Way, Edinburgh, EH3 9EG, or by phone 0131 718 1000. Should you have a complaint about any transaction through your broker, plan administrator or advisor, you should contact that person or organisation directly.

As a shareholder of F&C UK Real Estate Investments Limited, you do not have a right to complain to the Financial Ombudsman Service (FOS) in the UK about the management of F&C UK Real Estate Investments Limited.

Important Information

As well as looking at the potential rewards that investing in investment trusts can bring, it's important that you are aware of the potential risks involved so that you can make an informed decision.

The value of shares and the income from them is not guaranteed and can fall as well as rise due to stock market and currency movements. When you sell your shares, you may get back less than you originally invested. Our range of investment trusts invest in the stock market and some of them also invest in unlisted companies and funds and property. If they invest in emerging markets, unquoted securities or smaller companies, their potential volatility may increase the risk to the value of, and the income from, the investment. Investment trusts can also borrow money (gearing), which can then be used to make further investments and if markets fall, gearing can magnify the negative impact on performance. Tax benefits depend on your individual circumstances and tax allowances and rules may change. Please read our Key Features Document before investing. For more information about investment risks, visit our website [fandc.co.uk](https://www.fandc.co.uk).

F&C cannot give advice on the suitability of investing in our investment trusts or savings plans. If you have any doubts as to the suitability of an investment please contact a professional financial adviser.

Articles in this newsletter are intended only to provide a general outline of the subject and should not be considered advice, comprehensive nor a sufficient basis for making decisions. The opinions given are relevant at the time of going to press and may change in the future. Investors requiring advice on their individual circumstances or if unsure about a financial decision should consult a professional financial adviser.
