THE COMPANY

Investment Objective

The Company's Investment Objective is "to provide ordinary shareholders with an attractive level of income together with the potential for capital and income growth from investing in a diversified UK commercial property portfolio."

Investment restrictions and guidelines

The Company's holds a diversified portfolio of freehold and predominantly long leasehold (over 60 years remaining at the time of acquisition) UK commercial properties. It invests principally in three commercial property sectors: office, retail and industrial. The Company invests in properties which it believes will generate a combination of long-term growth in capital and income for shareholders

The Company has not set any maximum geographic exposures, but the maximum weightings in the principal property sectors at any time (stated as a percentage of total assets) are: office: 50 per cent; retail: 65 per cent; and industrial: 40 per cent. No single property may exceed 15 per cent of total assets and the five largest properties (excluding indirect property funds) may not exceed 40 per cent of total assets (in each case at the time of acquisition). Short leasehold properties (with less than 60 years remaining) may not exceed 10 per cent of total assets at the time of acquisition.

The Company is permitted to invest up to 15 per cent, at the time of acquisition, of its total assets in indirect property funds (including listed property companies) which invest principally in UK property, but these investments may not exceed 20 per cent of total assets at any subsequent date. The Company is permitted to invest cash, held by it for working capital purposes and awaiting investment, in cash deposits, gilts and money market funds.

Leverage

The Group uses gearing to enhance returns over the long term. The Company's Articles of Incorporation limit borrowings to 65 per cent of its total assets at the time of borrowing and the Company's Investment Policy limits borrowings to 50 per cent of total assets. However, it is the Board's present intention that borrowings of the Group will be limited to a maximum of 35 per cent of total assets at the time of borrowing. To reflect this intention and to allow for future fluctuations in property valuations, the maximum gross leverage, calculated in accordance with the requirements under the AIFM Directive as being inclusive of exposure to derivatives (such as interest rate swaps used to fix the interest rates on borrowings), is 300 per cent on both a gross and commitment basis.

Material changes to leverage policies must be agreed by the Company and will be notified to shareholders via the Company's website and its Annual Report and Consolidated Accounts.

The total level of leverage employed by the Company is updated regularly on the "Quarterly Factsheet" published on the Company's website.

Investment Policy and Strategy

The Company's Investment Strategy and Policy are set out in full in the Business Model and Strategy section of the Annual Report and Consolidated Accounts, which can be found on the Company's website.

The Company is required to obtain the prior approval of shareholders, by ordinary resolution, to any material change to its published Investment Policy. The Company will announce any such change through a Regulatory Information Service.

Dividend policy

The Company pays interim dividend distributions monthly to shareholders. As a result of the timing of the payment of the Company's monthly dividends, the Company's shareholders are unable to approve a final dividend each year. As an alternative the Board therefore puts the Company's dividend policy to shareholders for approval on an annual basis. Dividend payments are announced through a Regulatory Information Service. The Annual Report and Consolidated Accounts on the Company's website contains details of dividends paid in respect of the relevant financial year.

The Manager's remuneration for its services is based on a fee of 0.55 per cent per annum of the Group's gross assets (reduced to 0.525 per cent per annum on assets between £1.5 billion and £2 billion and 0.5 per cent per annum in excess of £2 billion) and reduced to 0.25 per cent per annum on cash net of gearing in excess of 5 per cent of net assets, payable quarterly in arrears. The Manager is not entitled to a performance fee.

The management agreement continues unless or until terminated by either party giving to the other not less than six months' notice in writing or unless otherwise terminated with cause upon immediate written notice from the Company to the Manager.

Remuneration policy of the AIFM

In accordance with the AIFM Directive, BMO Investment Business Limited, the designated Alternative Investment Fund Manager ("AIFM") for F&C Commercial Property Trust Limited, has adopted a remuneration policy which is consistent with the remuneration principles applicable to AIF management companies and aligned with the BMO Global Asset Management (EMEA) Remuneration Policy. The size of the AIFM and the size of the funds it manages, the internal organisation and the nature, the scope and the complexity of their activities have been taken into consideration in this disclosure.

Remuneration policy

The purpose of the AIFM's remuneration policy is to describe the remuneration principles and practices within the AIFM and for such principles and practices:

- (a) to be consistent with, and promote, sound and effective risk management;
- (b) to be in line with the business strategy, objectives, values and interests of the AIFM;
- (c) not to encourage excessive risk-taking as compared to the investment policy of the relevant sub-funds of the AIFM;
- (d) to provide a framework for remuneration to attract, motivate and retain staff (including directors) to which the policy applies in order to achieve the objectives of the AIFM; and
- (e) to ensure that any relevant conflicts of interest can be managed appropriately at all times.

Decision making and governance

The board of directors (the "Board") of the AIFM is responsible for the remuneration policy of the AIFM and for determining the remuneration of the directors of the AIFM and other staff who undertake professional activities for the AIFM. The Board has delegated to BMO Asset Management (Holdings) plc's Risk and Remuneration Committee (the "Committee") responsibility for maintaining a compliant remuneration policy. The Committee is solely comprised of non-executive directors of BMO Asset Management (Holdings) plc. The Board has adopted the remuneration policy applicable to all members of the BMO Group ("BMO Global Asset Management (EMEA)") for this financial year as reviewed and approved by the Committee periodically (at least annually). The Committee is responsible for, and oversees, the implementation of the remuneration policy in line with the AIFMD Regulations. The Board considers that the members of the Committee have appropriate expertise in risk management and remuneration to perform this review.

Applicability

The remuneration policy, which incorporates compliance with AIFMD requirements applies to staff whose professional activities have a material impact on the risk profile of the AIFM or of the funds it manages ("Identified Staff") and so covers:

- a) senior management;
- b) risk takers;
- c) control functions; and
- d) employees receiving total remuneration that takes them into the same remuneration bracket as senior management and risk takers, whose professional activities have a material impact on the risk profile of the AIFM.

The Identified Staff list and the selection criteria above are subject to regular review (at least annually) by the Committee as well as formally reviewed in the event of significant organisation changes and changes in remuneration regulations the AIFM is subject to.

Linking remuneration with performance

The AIFM's remuneration policy is part of the BMO Global Asset Management (EMEA) framework for promoting sound remuneration management, with the objective of providing total compensation to its employees that is warranted by corporate, business unit/function and individual performance and is comparable to market competitors, whilst being consistent with and promoting sound and effective risk management and the achievement of fair outcomes for all customers. Its purpose is to facilitate achievement of the business objectives and corporate values of the AIFM, with the primary focus on clients, whilst ensuring that BMO Global Asset Management (EMEA) is able to attract, retain and motivate the key talent required to achieve

these business objectives and corporate values without incentivising excessive or inappropriate risk.

When setting remuneration levels, the following components and principles form part of the remuneration management framework:

- Fixed remuneration is determined taking into account factors including the requirements of the particular role and the staff member's experience, expertise, contribution level and the fixed pay for comparable roles. Fixed remuneration is set, with reference to market data, at a level that is sufficient to attract high calibre staff as well as to permit the operation of a fully-flexible remuneration policy (including the possibility of a staff member receiving reduced or no variable remuneration in a particular year). The Committee keeps the balance between fixed and variable remuneration under review.

- Variable remuneration is determined annually by reference to both financial and non-financial AIFM performance considerations. External competitor practices are included in the funding review to ensure compensation opportunities in the markets within which the AIFM operates are given due consideration and retention risks are effectively managed. Incentive funding is developed in view of current and projected economics and risks, supported by BMO Global Asset Management (EMEA) Audit and Compliance Committee inputs, ensuring risk-adjustments and qualitative and quantitative considerations, such as the cost and quantity of capital and liquidity are actively considered as funding adjustments. The Committee ensures that all incentive awards are not paid through vehicles or methods that facilitate the avoidance of the requirements with regard to remuneration imposed by applicable law and/or regulations.

- Variable remuneration is allocated to respective business functions by reference to:
 - contribution of the respective business function or unit to corporate performance;
 - business function performance relative to pre-determined targets and objectives, including adherence to risk management obligations; and
 - competitive market pay data.

Individual award allocations are referenced to the individual achievement during the performance year relative to pre-agreed objectives and assessment of market comparability. Performance is assessed in relation to pre-agreed objectives, which include financial and non-financial goals (including the achievement of fair customer outcomes), compliance with the BMO Group's policies and procedures, adherence to risk management and compliance requirements and the BMO Code of Conduct. The assessment of performance for Identified Staff reflects multi-year performance in a manner appropriate to the life-cycle of the funds that are managed by the AIFM.

- Application of Financial Conduct Authority's Handbook (SYSC 19B: AIFMD Remuneration Code) pay-out process rules, save for disapplication at individual or AIFM level, which is determined by an annual proportionality assessment.

Legal implications of contractual relationship

The rights, obligations and relationships of the members of the Company shall be governed by the law of Guernsey and subject to exclusive jurisdiction of the courts of Guernsey.

The Guernsey courts generally recognise judgements obtained in the courts of another jurisdiction (subject to, inter alia, the legislation on the recognition of judgements referred to below, the rules of the Guernsey courts in relation to the recognition and/or enforcement of foreign judgements and such judgements not being contrary to public policy in Guernsey). The exact rules, on the recognition and enforcement of foreign judgements, depend on the jurisdiction in which such judgements are obtained. Legislation providing for the reciprocal recognition of foreign judgements in Guernsey in respect of reciprocating countries (including England and Wales) is the Judgments (Reciprocal Enforcement) (Guernsey) Law 1957.

The reciprocating countries under the 1957 legislation are:

England and Wales (Superior Courts: *the Supreme Court and the Senior Courts of England and Wales excluding the Crown Court*);

Isle of Man (Superior Court: *the High Court of Justice of the Isle of Man*);

Israel (Superior Courts: *the Supreme Court, the District Courts, Rabbinical Courts, Moslem Religious Courts, Christian Religious Courts and Druze Religious Courts*);

Jersey (Superior Courts: *the Royal Court of Jersey and the Court of Appeal of Jersey*);

Kingdom of the Netherlands (Superior Courts: *the Hoge Raad der Nederlanden, the Gerechtshoven and the Arrondissementsrechtbanken*);

Netherland Antilles (Superior Courts: *the Hoge Raad der Nederlanden, the Hof van Justitie der Nederlandse Antillen and the Gerecht in Eerste Aanleg*);

Northern Ireland (Superior Court: *the Court of Judicature of Northern Ireland*);

Republic of Italy (Superior Courts: *the Corte d'Appello and the Tribunale*);

Scotland (Superior Courts: *the Court of Session and the Sheriff Court*); and

Surinam (Superior Courts: *the Hof van Justitie van Suriname, the Kantongerecht in het Eerste Kanton and the Kantongerecht in het Derde Kanton*).

In respect of all other jurisdictions (including the United States), judgements are not automatically enforceable in Guernsey and would be required to be enforced in Guernsey under common law.

Fees and expenses

The fees and expenses which will be borne by the Company and investors are limited but there is no formal cap on their level. Fees and expenses are analysed within the financial statements in the Company's Annual Report and Consolidated Accounts and on the Company's website.

Accordingly, the maximum amount of fees and expenses which could theoretically be indirectly borne by the investors is equal to the value of their investment in the Company, including, in relation to indemnities, any distributions made to them by the Company.

Fair treatment of investors

The legal and regulatory regime to which the Company and the Directors are subject ensures the fair treatment of investors. The FCA Listing Rules require that the Company treats all shareholders of the same class of shares equally.

In particular, each Director has statutory duties under the Companies (Guernsey) Law, 2008 (as amended) with which he or she must comply, including a duty to act in the way he or she considers, in good faith, would be most likely to promote the success of the Company for the benefit of its members as a whole.

No investor has a right to obtain preferential treatment in relation to their investment in the Company and the Company does not give preferential treatment to any investors. Furthermore, the AIFM does not give preferential treatment to any investors who open savings plan accounts for the purpose of investing in the shares of the Company and it is obliged under the rules of the FCA to ensure that all investors in the savings plans are treated fairly. Oversight of its compliance with the aforementioned rules and the achievement of fair outcomes for investors is undertaken by the BMO Group Treating Customers Fairly Committee and through the operation of an embedded complaints handling procedure.

RISK FACTORS AND RISK MANAGEMENT

Risk profile

The Company's key risks and the procedures in place for the management of those risks are set out in the Annual Report and Consolidated Accounts on the website under the heading "Principal Risks and Future Prospects" within the Business Model and Strategy and under the Report of the Audit Committee.

The Company reports in its Interim Report and Accounts, which can be found at www.fccpt.co.uk, whether the key risks have changed since the year end.

Liquidity risk management

The Company's investments comprise UK commercial property. Property and property-related assets in which the Company invests are not traded in an organised public market and may be illiquid. As a result, the Group may not be able to liquidate quickly its investments in these properties at an amount close to their fair value in order to meet its liquidity requirements.

The AIFM and the Directors have in place a liquidity management policy in relation to the Company which is intended to ensure that the Company's investment portfolio maintains a level of liquidity which is appropriate to the Company's obligations in respect of investment transaction, share buybacks, loan repayments, dividend payments and other operating costs.

Details of the Company's investment portfolio are contained within the Annual Report and Consolidated Accounts.

A list of pre-approved counterparties, selected on strict criteria, is maintained by the AIFM. Cash and deposits must be held with approved banks with a minimum rating as set by the Company from time to time.

Investors will be notified by way of a disclosure on the website in the event of any material changes being made to the liquidity management systems and procedures, or where any new arrangements for managing the Company's liquidity are introduced.

Professional negligence liability risks

The AIFM is covered under professional indemnity insurance.
