Forward-looking statements

This interim report may contain forward-looking statements with respect to the financial condition, results of operations and business of the Company. Such statements involve risk and uncertainty because they relate to future events and circumstances that could cause actual results to differ materially from those expressed or implied by forward-looking statements. The forward-looking statements are based on the Directors’ current views and on information known to them at the date of this report. Nothing should be construed as a profit forecast.

Company Overview

BMO Managed Portfolio Trust PLC (the “**Company**”) is an investment trust and launched on 16 April 2008. Its shares are listed on the premium segment of the Official List of the Financial Conduct Authority and traded on the London Stock Exchange.

Purpose

The purpose of the Company is to provide investors with access to a broad spread of investment companies, covering a variety of geographies, sectors and investment managers, with the objective of providing both income and growth, while spreading investment risk. This is intended to appeal, in particular, to investors with smaller investment portfolios and to regular savers.

Share classes

The Company has two classes of shares with two separate investment portfolios:

- the Income shares, where the investment focus is to provide an attractive level of income, together with some capital growth; and
- the Growth shares, where the investment focus is to achieve capital growth.

The ability to switch between the two share classes annually, in a tax efficient manner, offers flexibility to those investors whose requirements may change over time.

The benchmark index for both the Income portfolio and the Growth portfolio is the FTSE All-Share Index total return.

As at 30 November 2020, the Income shares had a dividend yield of 4.8% and the Income shares and Growth shares had achieved a net asset value total return of 133.7% and 155.0% respectively since launch. The benchmark total return over the period from the Company’s launch to 30 November 2020 was 82.0%.

Chairman's Statement

Colin S McGill, Chairman

Highlights

- Net asset value ("NAV") total return for the six months of +13.0% for the Income shares and +20.0% for the Growth shares, both classes outperforming the FTSE All-Share Index total return of +6.9%
- NAV total return compound annual growth rate over 10 years of +7.8% for the Income shares and +10.0% for the Growth shares compared with a return of +5.9% from the FTSE All-Share Index.
- Income share dividend yield of 4.8% at 30 November 2020

Investment performance

For the six months to 30 November 2020, the NAV total return was +13.0% for the Income shares and +20.0% for the Growth shares. The total return for the benchmark index for both share classes, the FTSE All-Share Index, was +6.9%. The long-term track record continues to show the NAV total return for both share classes outperforming the benchmark index over 3 years, 5 years and 10 years to 30 November 2020, with the NAV total return over 10 years achieving a compound annual growth rate of +7.8% for the Income shares and +10.0% for the Growth shares compared with a return of +5.9% from the benchmark index.

Given the level of market uncertainty the rate for the first two interim dividends has been maintained at that paid in the prior year and the yield on the Income shares of 4.8% remains higher than the yield of 3.7% on the FTSE All-Share Index as at 30 November 2020.

The period under review witnessed markets operating under the spectre of the COVID-19 pandemic. As a result of strict lockdowns, the European and US economies went into a sharp and deep recession during the second calendar quarter of 2020. Restrictions were gradually eased, only to be tightened again as a second wave of the pandemic became apparent. The UK equity market was particularly hard hit and for most of the period continued to move lower until the announcement of the first vaccine in early November. Equity markets globally rallied strongly, especially in Europe and the UK as investors looked ahead to an opening up of economies and a return to a degree of normality.

The Growth portfolio performed strongly over the period as a number of investment companies with significant exposure to the wider technology sector performed well. This trend was led by **Scottish Mortgage Investment Trust** (the largest listed investment company) which rose over 50%. The trust benefitted from the extraordinary rise in the share price of its largest holding electric vehicle manufacturer Tesla. Its next biggest holding Amazon also performed well as demand for its online shopping was very strong. The next two best performers were UK equity trusts which had both experienced, for long periods, a difficult time in terms of performance. However, following the vaccine announcement in November they enjoyed substantial gains. Over the six months under review, **Artemis Alpha Trust** rose by 42% and **Henderson Opportunities Trust** appreciated by 41%; however, in both cases the majority of the share price rises happened following the vaccine announcement.

Chairman's Statement (continued)

Due to the requirement for yield it is challenging for the Income portfolio to gain exposure to the secular growth opportunities offered by investment trusts in the technology sector where the underlying companies often pay no or very low dividends. It is nonetheless encouraging that the Income portfolio outperformed its benchmark. The leading contributor with a 42% gain was **Princess Private Equity Holding** which specialises in mid-sized private companies primarily in the US and Europe with a focus on software, education, and digital platforms in a variety of different sectors. Long-time holding **JPMorgan Global Emerging Markets Income Trust** was ahead by 29% in a better environment for companies in emerging markets and **Law Debenture Corporation** gained 27% as UK equities rallied strongly following the vaccine announcement.

The Trust's excellent performance was recognised when the Growth portfolio once again won the 2020 Investment Week Investment Trust of the Year Award for the Flexible Investment sector.

(All share prices are total return).

Revenue and dividends

The Company's net revenue for the six months was £1.67 million which is equivalent to 3.57p per Income share (compared to 3.40p per Income share for the corresponding period in 2019). Income shares are entitled to all the dividends paid by the Company. One benefit of the closed-end investment trust structure is the ability to utilise revenue reserves, built up in previous years, to sustain dividend payments during periods when there is a significant reduction in dividend income from underlying holdings. That was the case in the interim period to 30 November 2020 and enabled many of our holdings to sustain or, in some cases, grow their dividend payments.

While the net revenue per Income share has increased in the current period by approximately 5%, given the continuing level of market uncertainty, the Company maintained the dividend rate when it declared a first and second interim dividend in respect of the year to 31 May 2021, each of 1.4p per Income share (1.4p per Income share in the corresponding period in the year to 31 May 2020).

In the absence of unforeseen circumstances, the Board intends to pay three interim dividends, each of 1.4p per Income share, and aggregate dividends for the current financial year to 31 May 2021 will be at least 6.1p per Income share (2020: 6.1p per Income share). The amount of the fourth interim dividend will be determined when a clearer view of income for the year emerges. A minimum expected annual rate of 6.1p per Income share represents a yield on the Income share price at 30 November 2020 of 4.8%.

Borrowing

At 30 November 2020 the Income portfolio had total borrowings of £5 million (7.8% of gross assets), the investment of which helps to boost net income after allowing for the interest cost. The Growth portfolio had no borrowings.

Discount to NAV and share buy-backs

In normal circumstances we aim to maintain our discount at not more than 5%, by buying back shares from time to time if necessary. In practice over the years the shares have generally traded close to NAV. During the six months to 30 November 2020 the average discount to NAV for the Income shares and for the Growth shares was 0.2% and 0.4% respectively. At 30 November 2020, the Income shares stood at a discount to NAV of 0.1% and the Growth shares at a premium of 0.4% to NAV.

Share conversion facility

Shareholders have the opportunity to convert their Income shares into Growth shares or their Growth shares into Income shares annually subject to minimum and maximum conversion thresholds which may be reduced or increased at the discretion of the Board. On 5 November 2020 the conversion proceeded, for those shareholders who had elected to do so. The net result of those conversions, was a decrease of 115,747 Income shares and an increase of 58,343 Growth shares in issue. The ability to convert without incurring capital gains tax should be an attractive facility for shareholders and the next conversion date (subject to minimum and maximum thresholds) will be in October 2021. Details will be provided when the Company's annual report is published in late July 2021.

Outlook

After the experience of 2020 where the pandemic caused an unprecedented sharp and deep recession the news of a number of effective vaccines has brought the hope that by the second half of this calendar year economies will be moving towards normalisation. Financial markets are assuming this will be the case. In the meantime, massive monetary and fiscal stimulation from various governments and Central Banks is being undertaken to ensure recovery will be robust as the year unfolds. Valuations of many equity markets (particularly the US) are at high levels, however the expectation is that economic recovery will be accompanied by a rapid and substantial recovery in corporate earnings in 2021.

Since the Brexit referendum in 2016 UK equities have been a persistent underperformer relative to most other major equity markets. This has left the UK very attractively valued when compared to other global equity markets. Conclusion of the post-Brexit trade agreement and the removal of the accompanying prolonged uncertainty should help to clear the way for a revival in the relative performance of the UK equity market. Although current lockdowns may delay the recovery, there is confidence that widespread vaccination will eventually bring about a concerted move towards normality.

Notes to the Condensed Financial Statements (unaudited)

1. Accounting policies

These condensed financial statements have been prepared on a going concern basis in accordance with the Disclosure Guidance and Transparency Rules of the Financial Conduct Authority, FRS 102, FRS 104 Interim Financial Reporting and the Statement of Recommended Practice (“SORP”) “Financial Statements of Investment Trust Companies and Venture Capital Trusts” issued by The Association of Investment Companies (“AIC”).

The accounting policies applied for the condensed set of financial statements are set out in the Company’s annual report for the year ended 31 May 2020.

2. Income

	Six months to 30 November 2020 £’000	Six months to 30 November 2019 £’000	Year to 31 May 2020 £’000
UK dividends	1,579	1,285	2,679
Overseas dividends	530	626	1,144
Deposit income	-	16	28
Total income	2,109	1,927	3,851

3. Investment management and performance fees

During the period, the Company incurred investment management fees of £483,000 (30 November 2019: £447,000; 31 May 2020: £881,000), of which £250,000 was payable to BMO Investment Business Limited at the period end.

At 30 November 2020 the adjusted total return of the Income portfolio for the period since 31 May 2020 (being the date a performance fee was last accrued) exceeded that of the FTSE All-Share Index and a performance fee of £114,000 was accrued in the Income portfolio at 30 November 2020 (30 November 2019: £25,000; 31 May 2020: £206,000).

At 30 November 2020 the adjusted total return of the Growth portfolio for the period since 31 May 2020 (being the date a performance fee was last payable) exceeded that of the FTSE All-Share Index and a performance fee of £160,000 was accrued in the Growth portfolio at 30 November 2020 (30 November 2019: £nil; 31 May 2020: £263,000)

Notes to the Condensed Financial Statements (unaudited) (continued)

3. Investment management and performance fees (continued)

As the NAV per Income share at 31 May 2020 was less than the Watermark NAV at 31 May 2019 (the date a performance fee was last payable in the Income portfolio) payment of the performance fee of £206,000 which was accrued in the Income portfolio at 31 May 2020 is deferred until the end of the next financial year when the NAV per share for the Income portfolio is in excess of the Watermark NAV. If the Watermark NAV is not reached by the end of the fourth financial year subsequently, it will no longer be payable.

4. Investments (continued)

The Company's Investments as disclosed in the balance sheet are valued at fair value. The fair value as at the reporting date has been estimated using the following fair value hierarchy:

Level 1 – quoted prices (unadjusted) in active markets for identical assets;

Level 2 – investments whose value is evidenced by comparison with other observable current market transactions in the same instrument or based on a valuation technique whose variables includes only data from observable markets; and

Level 3 – investments whose value is not based on observable market data.

There were no investments held which are valued in accordance with Levels 2 or 3.

[^] The nominal value of each Income share is £0.094976101 per Income share.

^{*†} The nominal value of a Deferred share is £0.0164991878 per share.

During the period, the Company issued 400,000 Income shares (30 November 2019: 800,000; 31 May 2020: 2,700,000) from the block listing facilities receiving net proceeds of £488,000 (30 November 2019: £1,081,000; 31 May 2020: £3,466,000) and purchased for treasury 25,000 Income shares at a cost of £29,000. At 30 November 2020, the Company held 25,000 Income shares in treasury (30 November 2019: nil; 31 May 2020: nil).

During the period, valid conversion notices were received to convert 258,490 Income shares (which represented a value of £301,000). These were converted into 130,294 Growth shares in accordance with the Company's Articles and by reference to the ratio of the relative underlying net asset values of the Growth shares and Income shares on the conversion date.

The Company's Articles allow for Deferred shares to be allotted as part of the share conversion to ensure that the conversion does not result in a reduction of the aggregate par value of the Company's issued share capital. The Deferred shares issued as part of the share conversion in the current period are set out above. The Deferred shares will be repurchased by the Company from time to time as authorised by shareholders at the September 2020 AGM.

10. Earnings

Earnings for the six months to 30 November 2020 should not be taken as a guide to the results for the full year to 31 May 2021.

11. Tax

The effective revenue tax rate for the period to 30 November 2020 is nil% (30 November 2019: nil%; 31 May 2020: 0.4%). This is lower than the rate of corporation tax for small companies due to the level of non-taxable dividend income.

12. Bank borrowing

The Company has a £5 million fixed term loan to 10 February 2022 with The Royal Bank of Scotland International Limited. £5 million of the fixed term loan was drawn down as at 30 November 2020 at a fixed interest rate of 2.03% per annum.

During the period there were no changes in the amount borrowed and therefore no change in liabilities arising from financing activities.

13. Going concern

In assessing the going concern basis of accounting, the Directors have had regard to the guidance issued by the Financial Reporting Council (including that related to COVID-19) and have undertaken a rigorous review of the Company's ability to continue as a going concern and specifically in the context of the COVID-19 pandemic.

The Company's investment objective and policy, which is subject to regular Board monitoring processes, is designed to ensure that the Company is invested principally in listed securities. The value of these investments exceeds the Company's liabilities by a significant margin.

The Company retains title to all assets held by its Custodian and has an agreement relating to its borrowing facility with which it has complied. Cash is only held with banks approved and regularly reviewed by the Manager.

The Directors believe, having assessed the principal risks and other matters, including the COVID-19 pandemic and in light of the controls and review processes and bearing in mind the nature of the Company's business and assets and revenue and expenditure projections, that the Company has adequate resources to continue in operational existence within its stated investment policy for a period of at least twelve months commencing from the date of approval of the financial statements. Accordingly, the financial statements have been drawn up on the basis that the Company is a going concern.

13. Going concern (continued)

The Company does not have a fixed life. However, the Company's Articles of Association require the Board to put a resolution to shareholders at every fifth AGM to continue the Company. An ordinary resolution to approve the continuation of the Company was passed at the AGM held on 19 September 2018 and will next be put to shareholders at the AGM in 2023.

14. Related party transactions

The Directors of the Company are considered a related party. There have been no transactions with related parties during the first six months of the current financial year that have materially affected the financial position or performance of the Company during the period and there have been no changes in the related party transactions described in the last Annual Report that could do so.

15. Results

The Company's auditor, KPMG LLP, has not audited or reviewed the Interim Report to 30 November 2020 pursuant to the Auditing Practices Board guidance on 'Review of Interim Financial Information'. These are not full statutory financial statements in terms of Section 434 of the Companies Act 2006 and are unaudited. Statutory financial statements for the year ended 31 May 2020, which received an unqualified audit report, and which did not contain a statement under Section 498 of the Companies Act 2006, have been lodged with the Registrar of Companies. The abridged financial statements included for the year ended 31 May 2020 are an extract from those financial statements. No full statutory financial statements in respect of any period after 31 May 2020 have been reported on by the Company's auditor or delivered to the Registrar of Companies.

Statement of Principal Risks and Uncertainties

Most of the Company's principal risks and uncertainties that could threaten the achievement of its objective; strategy, future performance, liquidity and solvency are market related and comparable to those of other investment trusts investing primarily in listed securities.

These risks, and the way in which they are managed, are described in more detail under the heading "Principal Risks and Uncertainties and Viability Statement" within the Strategic Report in the Company's Annual Report for the year ended 31 May 2020.

The Company's principal risks and uncertainties have not changed materially since the date of that report and are not expected to change materially for the remainder of the Company's financial year.

The principal risks identified in the Annual Report were:

- **Market Risk.** The Company's assets consist mainly of listed closed-end investment

companies and its principal financial risks are therefore market related and include market risk (comprising currency risk, interest rate risk and other price risk), liquidity risk and credit risk

- Investment Risk
- Custody Risk
- Operational Risk

These include risks in relation to failures at service providers or loss or sabotage of data through cyber threats or business continuity failure.

The Board has also considered the impact of Coronavirus (COVID-19) which has increased uncertainty and volatility in markets and has impacted the value of investments. In addition the operational resilience of the Manager and the Company's other third party service providers has been considered. This is included within financial risk and operational risk.

Statement of Directors' Responsibilities in Respect of the Interim Report

We confirm that to the best of our knowledge:

- the condensed set of financial statements have been prepared in accordance with applicable UK Accounting Standards on a going concern basis and give a true and fair view of the assets, liabilities, financial position and return of the Company;
- the Chairman's Statement and the Statement of Principal Risks and Uncertainties (together constituting the Interim Management Report) include a fair review of the information required by the Disclosure Guidance and Transparency Rule ('DTR') 4.2.7R, being an indication of important events that have occurred during the first six months of the financial year and their impact on the financial statements;
- the Statement of Principal Risks and Uncertainties is a fair review of the principal risks and uncertainties for the remainder of the financial year; and
- the Interim Report includes a fair review of the information required by DTR 4.2.8R, being related party transactions that have taken place in the first six months of the current financial year and that have materially affected the financial position or performance of the Company during the period, and any changes in the related party transactions described in the last Annual Report that could do so.

Alternative Performance Measures (“APMs”)

The Company uses the following APMs:

Discount/premium – the share price of an investment company is derived from buyers and sellers trading their shares on the stock market. This price is not identical to the net asset value (NAV) per share of the underlying assets less liabilities of the Company. If the share price is lower than the NAV per share, the shares are trading at a discount. This usually indicates that there are more sellers of shares than buyers. Shares trading at a price above NAV per share are deemed to be at a premium usually indicating there are more buyers of shares than sellers.

		30 November 2020		31 May 2020	
		Income shares	Growth shares	Income shares	Growth shares
Net asset value per share	(a)	127.16p	249.94p	115.71p	208.35p
Share price	(b)	127.00p	251.00p	117.50p	212.00p
-Discount/+premium (c = (b-a)/(a))	(c)	-0.1%	+0.4%	+1.5%	+1.8%

Total return – the return to shareholders calculated on a per share basis taking into account both any dividends paid in the period and the increase or decrease in the share price or NAV in the period. The dividends are assumed to have been re-invested in the form of shares or net assets, respectively, on the date on which the shares were quoted ex-dividend.

The effect of reinvesting these dividends on the respective ex-dividend dates and the share price total returns and NAV total returns are shown below.

How to Invest

One of the most convenient ways to invest in BMO Managed Portfolio Trust PLC is through one of the savings plans run by BMO.

BMO Investment Trust ISA

You can use your ISA allowance to make an annual tax-efficient investment of up to £20,000 for the 2020/21 tax year with a lump sum from £500 or regular savings from £50 a month per Trust. You can also transfer any existing ISAs to us whilst maintaining the tax benefits.

BMO Junior ISA (JISA)*

You can invest up to £9,000 for the tax year 2020/21 from £500 lump sum or £30 a month per Trust, or a combination of both. Please note, if your child already has a Child Trust Fund (CTF), then you cannot open a separate JISA, however you can transfer the existing CTF (held either with BMO or another provider) to a BMO JISA.

BMO Child Trust Fund (CTF)*

If your child has a CTF you can invest up to £9,000 for the 2020/21 tax year, from £100 lump sum or £25 a month per Trust, or a combination of both. You can also transfer a CTF from another provider to a BMO CTF. Please note, the CTF has been replaced by the JISA and is only available to investors who already hold a CTF.

BMO General Investment Account (GIA)

This is a flexible way to invest in our range of Investment Trusts. There are no maximum contributions, and investments can be made from £500 lump sum or £50 a month per Trust. You can also make additional lump sum top-ups at any time from £250 per Trust.

BMO Junior Investment Account (JIA)

This is a flexible way to save for a child in our range of Investment Trusts. There are no maximum contributions, and the plan can easily be set up under bare trust (where the child is noted as the beneficial owner) or kept in your name if you wish to retain control over the investment. Investments can be made from a £250 lump sum or £25 a month per Trust. You can also make additional lump sum top-ups at any time from £100 per Trust.

Charges

Annual management charges and other charges apply according to the type of plan.

Annual account charge

ISA: £60+VAT

GIA: £40+VAT

JISA/JIA/CTF: £25+VAT

You can pay the annual charge from your account, or by direct debit (in addition to any annual subscription limits).

Dealing charges

ISA: 0.2%

GIA/JIA/JISA: postal instructions £12, online instructions £8 per Trust.

Dealing charges apply when shares are bought or sold but not on the reinvestment of dividends or the investment of monthly direct debits for the GIA, JIA and JISA.

There are no dealing charges on a CTF but a switching charge of £25 applies if more than 2 switches are carried out in one year.

Government stamp duty of 0.5% also applies on the purchase of shares (where applicable).

There may be additional charges made if you transfer a plan to another provider or transfer the shares from your plan.

The value of investments can go down as well as up and you may not get back your original investment. Tax benefits depend on your individual circumstances and tax allowances and rules may change. Please ensure you have read the full Terms and Conditions, Privacy Policy and relevant Key Features documents before investing. For regulatory purposes, please ensure you have read the Pre-sales cost disclosures related to the product you are applying for, and the relevant Key Information Documents (KIDs) for the investment trusts you are wanting to invest into.
