3	Elect Michael Fraser as Director	Mgmt	For	Against
<i>Voter Rationale: <p>The board should appoint a Lead Independent Director to establish appropriate checks and balances on the Board; support the Chairman, ensure orderly succession process for the Chairman, and act as a point of contact for shareholders, non-executive directors and senior executives where normal channels of communication through the board Chairman are considered inappropriate. Furthermore, the audit committee should be fully independent and this director's membership could hamper the committee's impartiality and effectiveness.</p></i>

7	Adopt Share Retention Policy For Senior Executives	SH	Against	Against
<i>Voter Rationale: The company's substantial stock retention requirements for executives are appreciated. However, the idea of extending some portion past retirement, resignation or termination has merit. Compensation should be structured to align management interests with long-term investor interests. Also, this facilitates recouping awards in the event of fraud, a serious deterioration of the business due to inappropriate management of risk, a major restatement or other serious management failures.</i>

<p><i>Voter Rationale: Directors with long board tenures should not serve on committees that require absolute independence. Also, this director is not sufficiently independent to serve as the independent lead director. Despite board refreshment last year, we are disappointed to note that there have been indication that long-tenured directors will be removed for key committees.</i></p>				
1c	Elect Director Robert A. Katz	Mgmt	For	For
<p><i>Voter Rationale: The board should appoint a Lead Independent Director to establish appropriate checks and balances on the Board, support the Chairman, ensure orderly succession process for the Chairman, and act as a point of contact for shareholders, non-executive directors and senior executives where normal channels of communication through the board Chairman are considered inappropriate. Also, the roles of Chairman and CEO are substantially different and generally should be separated. Separation of roles is important for securing a proper balance between executives and outside shareholders and preserving accountability.</i></p>

The nominating committee should take action to ensure an appropriately fresh board and reduce the proportion of long standing directors to reduce the risk of entrenchment. <p><i>Voter Rationale: <p>The remuneration committee should not allow vesting of incentive awards for below median performance. <p><i>Voter Rationale: <p>All exceptional awards should be clearly linked to performance and demonstrate shareholder value creation in addition to and above that expected of directors as a normal part of their jobs. Also, on early termination, all share-based awards should be time pro-rated and tested for performance, including in the event of a change of control. In addition, NEOs' potential cash severance is outsized. <p><i>Voter Rationale: <p>The plan's structure and pay-for-performance results are not sufficiently strong. Good practices include: well disclosed and stretching performance targets; performance triggers for equity awards; using different metrics for the short and long-term plans; measuring company outcomes against its appropriate peer group; and setting awards so that executives are not rewarded for below-average performance. These and other approaches will ensure that the compensation committee designs compensation packages that build shareholder value over time. Also, incentive awards to executives should be clearly disclosed and include robust and stretching performance targets to reward strong performance and drive shareholder value over a sufficiently long period of time. Finally, companies should not extend vesting periods or allow re-testing of performance targets because this weakens the effectiveness of incentive schemes.</p></i></p>

<i>Voter Rationale: <p>The plan's structure and pay-for-performance results are not sufficiently strong. Good practices include: well disclosed and stretching performance targets; performance triggers for equity awards; using different metrics for the short and long-term plans; measuring company outcomes against its appropriate peer group; and setting awards so that executives are not rewarded for below-average performance. These and other approaches will ensure that the compensation committee designs compensation packages that build shareholder value over time. Also, this plan could lead to excessive dilution. In addition, incentive awards to executives should be clearly disclosed and include robust and stretching performance targets to reward strong performance and drive shareholder value over a sufficiently long period of time. Furthermore, incentive plans that allow for loans to exercise options are inconsistent with good practice and should be eliminated. Moreover, on early termination, all share-based awards should be time pro-rated and tested for performance, including in the event of a change of control. Lastly, share options should not be granted to non-executive directors as this may compromise their independence and ability to hold management accountable.</p></i>

<i>Voter Rationale: <p>The audit firm has served the company more than 20 years. While specific term limits for auditors is not a consensus best practice, there is value in gaining new perspectives on finances and controls.&#160;The board should consider a plan for bringing in a new auditing firm.</p></i>
