<p><i>Voter Rationale: Incentive awards to executives should be clearly disclosed and include robust and stretching performance targets to reward strong performance and drive shareholder value over a sufficiently long period of time. Furthermore, the remuneration report does not articulate how executives performed against historic performance targets. The board should articulate how bonus payments reflect prior year performance, as well as outlining forward-looking targets that underpin long-term incentive plans. In addition, the remuneration committee should consider introducing a clawback policy which would enable the board to recoup pay following gross misconduct or a material restatement.</i></p>

3	Approve Remuneration Report	Mgmt	For	Against
---	-----------------------------	------	-----	---------

Voter Rationale: Incentive awards to executives should be clearly disclosed and include robust and stretching performance targets to reward strong performance and drive shareholder value over a sufficiently long period of time. Furthermore, on early termination, all share-based awards should be time pro-rated and tested for performance, including in the event of a change of control. In addition, the long-term incentive plan is linked to a single performance target. Companies should base vesting levels on multiple performance criteria that reflect both absolute and relative financial metrics rather than a single performance criterion, and should stagger vesting to reward progressively better performance. Furthermore, the remuneration report does not articulate how executives performed against historic performance targets. The board should articulate how bonus payments reflect prior year performance, as well as outlining forward-looking targets that underpin long-term incentive plans. Finally, the remuneration committee should consider introducing a clawback policy which would enable the board to recoup pay following gross misconduct or a material restatement.
