

# Pillar 3 Disclosures

---

The F&C Group (part of the BMO Financial Group)

---

## Purpose

- This document sets out the F&C Asset Management plc (F&C Group) Pillar 3 disclosures as at 31 October 2017. The aim of Pillar 3 is to improve market discipline by requiring firms to publish certain details of their capital, risk exposures and management practices. Pillar 3 also requires firms to have a formal disclosure policy to assess the appropriateness, verification and frequency of disclosure. This document is F&C's response to the Pillar 3 requirements and, as such, constitutes the F&C Group Pillar 3 policy.

## Background

- Pillar 3 disclosures are provided to meet the regulatory disclosure requirements of the Capital Requirements Regulation (CRR) and the Capital Requirements Directive (CRD) referred to together as CRD IV, which came into effect on 1 January 2014. The disclosure requirements are set out in Part Eight of the CRR.
- Pillar 3 disclosures are also provided to meet the regulatory disclosure requirements of the Capital Requirements Directive III (CRD III), still in effect, and as currently transposed into Chapter 11 of the FCA Prudential Sourcebook for Banks, Building Societies and Investment Firms.

Source: BMO Global Asset Management as at 31.10.2017.

## Scope and application of disclosure requirements

- The disclosures in this document relate to the F&C Group (“F&C” or “the Group”), the parent of which, BMO Global Asset Management (Europe) Limited (“BMO GAM Europe”), is an unregulated holding company. BMO GAM Europe is ultimately a wholly owned subsidiary of the Bank of Montreal and therefore part of the Bank of Montreal Financial Group (“BMO Financial Group”). The F&C Group was purchased by the BMO Financial Group in May 2014.

F&C Group Company	Abbreviation	Country of incorporation	Prudential regulator	CRD III / CRD IV
F&C Managers Limited	FCMGRS	England	FCA <sup>3</sup>	CRD III
BMO REP Asset Management plc	BMOREP	England	FCA	CRD III
Thames River Capital LLP	TRC	England	FCA	CRD III
Thames River Multi-Capital LLP	TRMC	England	FCA	CRD III
F&C Asset Managers Limited	F&CAM	England	FCA	CRD III
F&C Management Limited	FCM	England	FCA	CRD IV
F&C Netherlands B.V.	FCNL	Netherlands	DNB <sup>1</sup>	CRD IV
F&C Portugal S.A.	FCPGL	Portugal	BoP <sup>2</sup>	CRD IV

- All firms detailed are consolidated into the Group for prudential and accounting purposes. There are additional regulated firms in the Group that have no disclosure requirement under the CRD III or CRD IV. These are however included in the accounting consolidation.
- The Group currently operates under a waiver from the UK financial regulator from meeting any minimum capital requirements under the consolidated supervision rules and consequently disclosures are made on an individual basis across all in-scope firms.
- There are no known current or foreseen practical or legal impediments (other than those set out by law or in regulation) to the prompt transfer of capital resources or repayments of liabilities between parent and subsidiary undertakings and there are no subsidiary undertakings where actual capital resources are less than the required minimum, i.e. each regulated company within the Group currently holds a surplus of regulatory capital.

---

## Frequency and means of disclosure

- The capital and risk disclosures required under Pillar 3 are required to be produced at least annually and published in conjunction with the date of publication of the Annual Report and Financial Statements. BMO GAM Europe has an accounting reference date of 31 October, therefore, the financial year-end dates of the regulated firms is 31 October, except TRC and TRMC being 31 March. Where there is a mismatch between the year-end dates and prudential regulatory reporting dates, the regulatory capital submission reported closest to 31 October 2017 has been disclosed, which for most firms is as at 30 September 2017; F&C Managers Limited, BMO REP Asset Management plc and F&C Asset Managers Limited reported as at 31 October 2017.
- None of the disclosures are subject to audit and have been produced solely for the purposes of satisfying the Pillar 3 regulatory requirements.

## Risk management objectives and policies

- The Group is a diversified asset management group focused on becoming a multi-asset class manager of global significance. The Group manages investments from multiple investment centres including London, Edinburgh, Amsterdam and Lisbon.
- Our risks are typical to those of investment managers and fall under the categories of financial risk, operational risk and strategic risk. It is important to note that all risks are monitored and managed as part of a governance and risk management framework which is consistently applied across all firms within the Group. Whilst the immediate parent of the Group is BMO GAM Europe, the overarching governance of the Group is implemented and overseen by the Board of F&C Asset Management plc (“FCAM”), a direct, and the sole subsidiary, of BMO GAM Europe. This uniformity has been applied as all Group firms are managed and operated to support the Group’s objectives and strategies, and therefore the FCAM Board and Group Management provides oversight of all operations.

Source: BMO Global Asset Management as at 31.10.2017. These disclosures are published on the BMO GAM corporate website ([www.bmogam.com](http://www.bmogam.com)) and are referenced in the financial statements of all in-scope CRD III and IV firms.

---

## Control environment

- The Group is committed to high standards of business conduct and seeks to maintain these across all areas of its business and all jurisdictions in which it operates. The Group has procedures for reporting and resolving matters that do not meet the required standards of business conduct.
- The Group has an appropriate organisational structure for planning, executing, managing and monitoring business operations in order to achieve its objectives. This structure is designed to provide clear responsibilities and a control framework for key areas of the Group's business.
- A Governance structure is in place to manage and escalate risks throughout BMO GAM to include: Audit & Compliance Committee, Risk & Remuneration and the FCAM Board which reports directly into the Bank of Montreal Governance structure.
- Operational responsibility for the control environment rests with the BMO GAM Chief Executive and is devolved through a documented executive structure with clearly delegated and appropriate levels of authority. Executive Directors are, therefore, accountable for the operation of the systems of internal controls within the Group's business. The Group operates a three lines of defence model with independent risk, compliance and internal audit functions.
- The Business Risk team supports the FCAM Board and Bank of Montreal in discharging their duty to ensure that effective systems and controls are in place. The Business Risk team operates independently of any other business line, investment team or function. The key objective of the Business Risk team is to assist in developing and implementing a robust risk and control framework, as approved by the FCAM Board and BMO, which will enable risks to be identified and assessed across the Group, managed within acceptable tolerance levels, monitored on a regular basis and reported to management in a timely manner.

Source: BMO Global Asset Management as at 31.10.2017.

- 
- The Group also has separate Compliance (including a first line business unit compliance team) and Internal Audit functions. On a day-to-day basis the risk framework is owned by the Business Risk function and the risk processes are managed via the Business Risk and Compliance teams. Investment risk is managed at the individual investment desk level with oversight from a dedicated Investment Risk Oversight function. Internal Audit provides independent, objective assurance on the control framework.
  - The Mandate Compliance function is responsible for the coding of investment restrictions within the order management system for pre and post trade compliance monitoring. They investigate any breaches and report accordingly to senior management.
  - The Investment Risk Oversight team is responsible for assessing and challenging Group-wide activities that give rise to investment risk. The team's remit is to provide independent oversight on the effectiveness of all fund managers in managing the investment risk in their portfolios.

### Monitoring and Corrective Action

- Compliance and Internal Audit conduct regular monitoring of various business areas and control procedures in line with an agreed plan.
- Any issues of significance are brought to the attention of the Audit & Compliance Committee (ACC) through the regular reporting process. Planned corrective actions are independently monitored for timely completion and reviewed by the ACC.
- A formal annual internal control report is produced for clients providing assurance on both the design and the operating effectiveness of control procedures. The report follows the International Standard on Assurance Engagements (ISAE) No. 3402 as well as the Audit & Assurance Faculty ("AAF") guidelines established by the ICAEW.

---

## Approach to Operational and Strategic Risk

- The identification of major operational and strategic risks is carried out by the FCAM Board in conjunction with management, and procedures to manage these risks, where possible, are reviewed and agreed.
- Business Risk produce regular reporting to the relevant Boards and Committees which have been reviewed by the appropriate business units. These will highlight any changes to the risk ratings and significant risk events. All significant items are identified and reported to the Board on a regular basis.
- The Business Risk function facilitates the identification and documentation of risk in the business and helps the business identify mitigating actions in accordance with the BMO Financial Group Risk Management Corporate Policy and Risk Appetite Statement. In addition, any business incidents, including investment mandate breaches, are reported by the business to the risk team and they are recorded and actively monitored until resolved.

## Approach to Financial Risk

- The Group's risk management objectives and policies applicable to this disclosure and with specific regard to counterparty credit risk, liquidity risk and market risk are summarised below.
- The Group adopts a low risk approach to treasury management and seeks to ensure that its capital is preserved and financial risks are managed appropriately.
- The Group's corporate treasury activities are managed by the Finance function within parameters defined by the Board. The regulatory capital positions of the Group are reported to the Board on a regular basis.
- The Counterparty Risk team manage new counterparty / broker requests, undertaking both quantitative and qualitative assessments and due diligence before making appropriate recommendations for approval / rejection by the Counterparty Credit Committee (CCC).

Source: BMO Global Asset Management as at 31.10.2017.

- 
- The Group is exposed to a number of financial risks in the normal course of its business. The associated risk management processes have been designed to manage these risks and recognise that treasury management operations are specifically not treated as a profit centre. The key aspects are detailed below:
    - The Board Reserved List prohibits the establishment of borrowing facilities without the prior approval of the Board.
    - Placing of funds on deposit is short term only (maximum term 90 days) – unless approved by the Chief Operating Officer or Chief Executive Officer.
    - Deposits may only be placed with counterparties approved by the CCC, and the Board sets the appropriate limit of exposure to any one counterparty.
    - Foreign currency exposure is managed to reduce the risk and impact of movements in exchange rates by the repatriation of surplus foreign currency to Sterling. Surplus currency balances are defined as being the level of cash which exceeds the regulatory, legal and working capital requirements of the relevant firms.
  - The Group is exposed to the effects of fluctuations in the prevailing levels of market interest rates on its financial assets, but benefited from the certainty of fixed interest rates on its issued debt, which was redeemed in full in December 2016.

## Remuneration

- The Group has been subject, on a consolidated basis, since 1 January 2014 to the requirements of the revised FCA Remuneration Code (“the Code”) applying in respect of remuneration paid to CRD IV categorised code staff (“Code Staff”). A key objective of the Code is to ensure remuneration policies promote effective risk management and that the pay practices within firms do not encourage inappropriate risk taking by staff or result in an inappropriate quantum of incentives being distributed relative to the company’s capital base.

Source: BMO Global Asset Management as at 31.10.2017.

- 
- The FCA has adopted a proportionate approach to the implementation of its Remuneration Code (SYSC 19A) in respect of how firms may apply the Code in a proportionate manner based on their risk profile. The general guidance issued by the FCA confirms its view that it will normally be appropriate for a firm categorised as “level three” to dis-apply the pay-out process rules imposed under CRD IV in respect of variable remuneration. These are the rules relating to payment of remuneration in retained shares or other instruments, deferral, ratio of variable remuneration to fixed remuneration, and post-award performance adjustment. The Group has been categorised as being a level three firm for the purpose of the Code and so consequently has determined that it is appropriate to dis-apply the pay-out process rules to its Code Staff. However, the Group must still comply with all other requirements within the Code in respect of its remuneration practices and the governance thereof. It is recognised by the Group that its ability to dis-apply the aforementioned pay-out process rules on grounds of proportionality may be removed in due course.

### Decision-making process for remuneration policy

- The F&C Board has formed the F&C Risk & Remuneration Committee (the “Committee”) composed of four of its non-executive directors, three of whom are independent non-executive directors. The Committee is required to meet not less than four times a year. The Committee’s responsibilities include ensuring that the remuneration policies, procedures and practices operated by the Group adhere to the requirements of the Code, are consistent with and promote sound and effective risk management and the achievement of fair outcomes for all customers of the Group; do not incentivise risk-taking that exceeds the approved risk appetite of the F&C Group or any of its entities or the risk appetite, governing terms and investment strategy of any of the investment mandates or investment funds operated by the Group; are aligned with the business strategy, objectives, values and long-term interests of the Group itself and those of its customers and its shareholder; the quantum of total variable remuneration does not limit the ability of F&C to safeguard and, where required, strengthen its capital base.

Source: BMO Global Asset Management as at 31.10.2017.

- 
- The Group has prepared and maintains the BMO Global Asset Management (EMEA) Remuneration Policy (the “Policy”). This is reviewed and approved annually by the Committee to ensure that it complies with the FCA Remuneration Code, together with any other requirements relating to the jurisdictions in which we operate. Its purpose is to facilitate achievement of the business objectives and corporate values of the Company and Bank of Montreal, with the primary focus on clients, whilst ensuring that F&C is able to attract, retain and motivate the key talent required to achieve these business objectives and corporate values without incentivising excessive or inappropriate risk.
  - The Human Resources Committee (HR Committee), on behalf of the Bank of Montreal’s (Bank) Board of Directors, establishes and oversees human resources strategies (including compensation and talent management) which support the Bank’s vision to be the bank that defines great customer experience.
  - The HR Committee met seven times during 2017. The HR Committee’s mandate is contained in the HR Committee’s charter at <http://www.bmo.com/home/about/banking/corporate-governance/board-committees/human-resources>.
  - The HR Committee fully considers the Bank’s strategic priorities in setting compensation policy and it is mindful of its duties to shareholders and other stakeholders. The HR Committee has structured the compensation programs to make sure there is a strong positive correlation between corporate results and financial returns to shareholders, while not encouraging excessive or inappropriate risk-taking.

Source: BMO Global Asset Management as at 31.10.2017.

---

## General principles

- The Policy is based on and is consistent with the following general principles:
  - a. Remuneration policies, procedures and practices are consistent with and promote sound and effective risk management and the achievement of fair outcomes for all customers of the F&C Group and the wider BMO Financial Group. The Policy does not incentivise risk-taking that exceeds the approved risk appetite of the F&C Group or of any of its entities including the AIFMs and UCITS, or the risk appetite, governing terms and investment strategy of any of the investment mandates or investment funds operated by the Group.
  - b. The Remuneration Policy is aligned with the business strategy, objectives, values and long-term interests of the F&C Group itself and those of its customers and its shareholder.
  - c. The quantum of total variable remuneration does not limit the ability of F&C to safeguard and, where required, strengthen its capital base.
  - d. The quantum of total variable remuneration reflects the overall performance of the Group relative to financial, non-financial and risk-based criteria, as well as current skills market considerations.
  - e. Fixed and variable remuneration practices operated by the Group will be consistent with the application of legal and regulatory standards in each of the national jurisdictions in which the Group operates.

Source: BMO Global Asset Management as at 31.10.2017

---

## The management and operation of the Remuneration Policy

- Fixed remuneration is set at a level that is sufficient to attract and retain high calibre staff as well as to permit the operation of a fully-flexible variable remuneration approach (including the possibility of a staff member receiving reduced or no variable remuneration in a particular year). The Committee keeps the balance between fixed and variable remuneration under review.
- Variable incentives may be awarded to eligible employees where the performance of both the Group and the employee substantiate the award of variable incentives. Variable incentives may be awarded in a combination of cash and deferred instruments. Deferred instruments are incorporated into the variable incentive offering to align the long term interests of designated employees with those of the customer and Shareholder. Where offered, deferred instruments cliff-vest over a three year withholding period. Unvested variable remuneration with regard to any employee may be reduced, at the absolute discretion of the Committee, if significant financial re-statement, conduct and control issues are subsequently identified post award.
- Variable incentive award recommendations for employees are developed by line managers by reference to factors including the employee performance appraisal process and reflect individual achievements during the performance years relative to pre-agreed objectives. Objectives include financial and non-financial goals (including the achievement of fair customer outcomes), compliance with the Group's policies and procedures, and adherence to risk management obligations. The process requires formal sign-off by the employee and their manager including confirmation of continuing competence and demonstration of risk management and compliance with the Group's policies and procedures.

---

## Determination of Code Staff

- F&C apply the FCA's Remuneration Code criteria to identify Code Staff whose professional activities have a material impact on the risk profile of the firm. The criteria comprises the following categories:
  - Senior management
  - Risk-takers
  - Staff engaged in control functions
  - Any employee receiving total remuneration that takes them into the same remuneration bracket as senior management and risk-takers, whose professional activities have a material impact of the firm's risk profile
- The Committee determines those employees whose roles and responsibilities meet the definition of Code Staff. The list of employees who are designated as Code Staff is maintained by the HR department. An annual review of the list of designated staff is completed by the Committee.
- 49 individuals have been identified as Code Staff, of whom 18 are classified as Senior Management. The remainder have been identified as members of staff whose actions have a material impact on the risk profile of the F&C Group.

Source: BMO Global Asset Management as at 31.10.2017.

---

## The link between pay and performance for Code Staff

- Compensation is a combination of fixed pay elements and performance-related pay elements (short-term and mid-term incentives). Short-term incentive pay is designed to reward the employees for the achievement of annual goals based on a combination of Bank, operating group, F&C and individual performance while managing risk.

- i) Asset Management

The short-term incentive pool is adjusted by evaluating (i) business performance against annual business targets and (ii) longer-term Group and operating group goals and strategies, including an assessment of risk.

Individual awards are based on achieving business and individual performance goals that are designed to reinforce the Group and operating group's strategic priorities and values. On a limited basis, a revenue sharing arrangement is leveraged, of which the amount eligible to be paid is dependent on the net investment management fees for the funds managed.

The discretionary nature of the majority of plans provides the Group greater flexibility to prioritise and reward longer-term, client-focused interests and objectives.

All Code Staff are eligible to participate in the Bank's mid-term equity incentive plan (MTIP). A significant amount of the total incentive award may be deferred under the mid-term equity incentive plan depending on the employee's role and the size of the incentive award. The plan is designed to promote a greater alignment of interest between employees and shareholders of Bank.

Source: BMO Global Asset Management as at 31.10.2017.

---

ii) Control Functions

Remuneration for employees in control functions is tied to overall Bank performance and performance against individual goals.

These employees have independent reporting lines from the business they support, nor does the success or financial performance of business areas they support or monitor directly impact the assessment of their performance or remuneration. This independence mitigates risk and encourages these employees to maintain their focus on the Bank's overall success.

Code Staff in control functions are eligible to participate in short-term incentive plan, where the pool is based on Bank and the Bank's operating group's performance against annual business targets.

Senior managers are also eligible to participate in the Bank's MTIP. The plan is designed to reward select senior managers and to promote a greater alignment of interest between employees and shareholders of the Bank.

iii) Risk performance adjustment

For all employees, the HR Committee may, at its sole discretion, reduce or eliminate payouts of mid-term incentive awards which have been previously granted if they discover information that would have reduced the size of an award when it was granted. The HR Committee evaluates risk criteria (for example, credit losses, financial losses and key indicators of operational, market compliance and reputational risk) when determining whether to use its discretion to reduce MTIP payouts.

## Remuneration for Code Staff

- The remuneration paid to Code Staff is:

	Senior management (£'000)	Remainder (£'000)
Fixed remuneration	2,814	6,078
Variable remuneration	7,243	8,277
<b>Total remuneration</b>	<b>10,057</b>	<b>14,355</b>
Variable rem. in Cash	3,809	5,178
Variable rem. in Share Linked instruments*	3,434	3,099
Variable rem. In other types of instruments	0	0
Outstanding vested deferred remuneration	0	0
Outstanding unvested deferred remuneration*	17,114	18,497

\*Please note MTIP values shown are market value as at 31/10/2017.

Source: BMO Global Asset Management as at 31.10.2017.

- Fixed remuneration includes employer pension contributions and Independent Non-Executive Director fees.
- Variable remuneration includes cash bonus awards and BMO Restricted Share Unit awards for the 2017 performance year.
- One sign-on payment has been made to newly hired Code Staff during the 2017 performance year.
- No severance payments have been made to Code Staff during the 2017 performance year.

Of the individuals above, 11 received remuneration of over EUR 1 million. This can be broken down as follows:

Remuneration (million)	Number of individuals
€1 to €1.5	7
€1.5 to €2	1
€2 to €2.5	2
€4.5 to €5	1

Notes:

- As 9 Code Staff are compensated for their work for two entities, 50% of their aggregate compensation is reflected in each entity.
- As 1 Code Staff is compensated for their work for three entities, 33% of their aggregate compensation is reflected in each entity.
- As 3 Code Staff are compensated for their work for five entities, 20% of their aggregate compensation is reflected in each entity.

## Capital resources

- As a result of the accounting reference dates for most firms being 31 October (Thames River Capital LLP and Thames River Multi-Capital LLP being 31 March) and CRD IV firms being required to report capital adequacy on a calendar quarter basis, the most recently reported regulatory capital submission as at 31 October 2017 is disclosed. For the CRD III firms, this is as at 31 October 2017, apart from Thames River Capital LLP and Thames River Multi-Capital LLP, both of which most recently reported as at 30 September 2017, as did the CRD IV firms. The capital resources disclosures, where the latest reported regulatory capital submission is as at 30 September 2017, will therefore differ from the total of the relevant balance sheet items in the firms' published financial statements as at 31 October 2017.
- The tier 1 capital resources of each firm consist of share capital (or members' capital for Thames River Capital LLP and Thames River Multi-Capital LLP), share premium and profit & loss account and other reserves. Share capital relates to ordinary shares in each firm that are allotted, called up and fully paid.

Latest reported Capital Resources Position	CRD III FCMGRS	CRD III BMOREP	CRD III TRC	CRD III TRMC	CRD III F&CAM	CRD IV FCM <sup>4</sup>	CRD IV FCNL <sup>5</sup>	CRD IV FCPGL

<b>Total regulatory capital resources</b>	<b>9,906</b>	<b>4,451</b>	<b>6,980</b>	<b>3,258</b>	<b>16,083</b>	<b>55,679</b>	<b>20,253</b>	<b>9,736</b>

Source: BMO Global Asset Management as at 31.10.2017. <sup>4</sup> F&C Management Limited capital resources include a £50k equity holding in a subsidiary financial sector entity, not deducted due to CRD IV transitional provisions, and a deferred tax asset of £8,845k, of which only £7,076k deducted from capital resources due to transitional provisions. <sup>5</sup> F&C Netherlands BV holds a deferred tax asset of €2,276k, of which only €1,821k deducted from capital resources due to transitional provisions. <sup>6</sup> CRD III firms: excludes current period non-material losses or unaudited profits, whichever is applicable. CRD IV firms: includes deduction for unaudited losses or excludes unaudited profits, whichever is applicable. <sup>7</sup> Deduction for illiquid assets relevant for CRD III firms.

## Capital resource requirements

- All firms are required to calculate Pillar 1 capital requirements, irrespective of being on a CRD III or CRD IV basis, as the higher of: (a) the sum of the credit risk capital requirement and the market risk capital requirement; and (b) the fixed overheads requirement. The firms are not required to calculate or include an operational risk requirement under Pillar 1.

Latest reported Capital Resource Requirements	CRD III FCMGRS £'000	CRD III BMOREP £'000	CRD III TRC £'000	CRD III TRMC £'000	CRD III F&CAM £'000	CRD IV FCM £'000	CRD IV FCNL €'000	CRD IV FCPGL €'000
Credit risk capital requirement	520	320	295	699	333	5,734	1,217	325
Market risk capital requirement	-	65	15	-	-	486	129	-
Fixed overheads requirement	1,331	71	612	1,082	359	14,302	6,614	1,454
<b>Total Pillar 1 Requirement</b>	<b>1,331</b>	<b>385</b>	<b>612</b>	<b>1,082</b>	<b>359</b>	<b>14,302</b>	<b>6,614</b>	<b>1,454</b>

- The Group calculates the Pillar 1 credit risk capital requirement for each firm in accordance with the standardised approach. Further disclosures relating to the credit risk capital component have in most cases been considered immaterial as the capital requirement for most firms is the fixed overhead requirement. The following table shows the credit risk exposure class for BMO REP Asset Management plc where the capital resource requirement is not the fixed overhead requirement. The market risk for this firm relates to foreign exchange.

Credit risk exposure class	CRD III BMOREP £'000
Institutions	186
Other items	134
<b>Total credit risk capital requirement</b>	<b>320</b>

Source: BMO Global Asset Management as at 31.10.2017.

## Capital adequacy ratios

- CRD IV firms are required to maintain a minimum total capital ratio of 8%, calculated using total exposure values, which for each firm is the Pillar 1 requirement times 12.5. The surplus of total capital is the surplus of capital resources over the pillar 1 capital requirement.

	FCM	FCNL	FCPGL
Latest reported Common Equity Tier 1 and Total Capital ratios for CRD IV firms	31.14%	24.50%	53.59%
	£'000	€'000	€'000
Surplus of total capital	41,377	13,639	8,282

## Compliance with the Pillar 2 rule requirements

- The adequacy of capital to support current and future activities is monitored in the Internal Capital Adequacy Assessment Process (“ICAAP”). The level of capital required has been assessed through reviewing a number of scenarios and comparing them with the base case scenario of our budgeted business plan. This approach identifies the timescale and extent of possible capital deficiencies should an adverse scenario arise. The additional level of capital required to cover the Group against such a scenario can then be assessed and / or the mitigating actions identified which are required to ensure a continued capital surplus.
- The latest ICAAP has been prepared based on 31 October 2016 audited financial statements and was approved by the Board in September 2017. It forecasts for a three-year time span to 31 October 2019. This time span is deemed appropriate as it shows both a short-term view of any adverse scenarios and also an impact over the medium-term during which actions would be taken if continued deterioration were to occur. The 2017 ICAAP is currently under way and will contain similar three-year forecasts.

Source: BMO Global Asset Management as at 31.10.2017.

---

## Verification, frequency and ongoing review of the disclosures

- The disclosures detailed in this document are updated in conjunction with the ICAAP, and generally on an annual basis, unless there is a significant event which would detrimentally impact the capital and risk position of the Group.
- The disclosures detailed in the ICAAP are reviewed and formally adopted by the Board of FCAM, and the Boards of subsidiaries as appropriate.
- The Pillar 3 disclosure document is reviewed and approved by the Group Chief Operating Officer.
