

SEI: Equity

Q4 2015

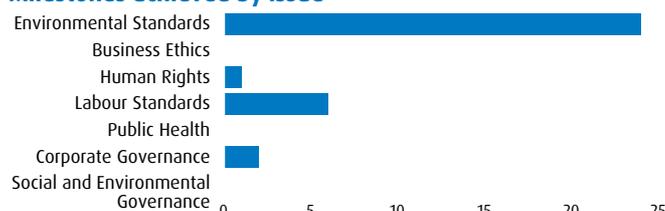

SEI New ways.
New answers.®

The purpose of the **reo**® (responsible engagement overlay)* service is to engage with companies held in portfolios with a view to promoting the adoption of better environmental, social and governance (ESG) practices. The **reo**® approach focuses on enhancing long-term investment performance by making companies more commercially successful through safer, cleaner, and more accountable operations that are better positioned to deal with ESG risks and opportunities. Through a combination of constructive dialogue and active share voting, **reo**® works to drive behavioural change with companies, and records successful outcomes as ‘milestones’ – changes in corporate policies or behaviour following intervention.

* **reo**® is currently applied to £66.4bn (\$100.8billion / €90.2billion) of assets as at 30th September 2015. ** Companies may have been engaged on more than one issue. *** This report has been compiled using data supplied by a third-party electronic voting platform provider. The statistics exclude ballots with zero shares and re-registration meetings. Meetings/ballots/proposals are not considered voted if: ballots have been rejected by voting intermediaries (e.g. where necessary documentation (such as Powers of Attorney, beneficial owner confirmation, etc.) was not in place); instructed as “Do not vote” (e.g. in share-blocking markets); or left uninstruced. This document is for professional advisors only and should not be circulated to other investors. Past performance should not be seen as an indication of future performance. Stock market and currency movements mean the value of, and income from, investments in the Fund are not guaranteed. They can go down as well as up and you may not get back the amount you invest. © 2015 BMO Global Asset Management. All rights reserved.
